98c Learning Loss Plan

Need	Plan	Rationale	Metric	Budget
K-5 English Learner Teacher	Funds will be used to support K-5 Elementary English Learners in English Language Development and foundational reading skills. Students will receive servicing based on a combination of WIDA Proficiency Scores and Acadience Benchmark and Progress Monitoring data. Students serviced will be supported in both English Language Development and targeted foundational literacy skills.	To multiply our impact on loss of time, we need to accelerate our English Learners. Students need a blended support of not only targeted foundational literacy skills, but also English Language Development. By adding an additional staff support to our WIN (What I Need) Tier 3 Intervention system, we are able to support more students with evidence-based practices and provide a crucial braided blend of supports through both language and literacy development.	K-5 EL students: Acadience Benchmark Proficiency	1.0 FTE (Beginning 10/1/22) Salary \$70,000 + Benefits \$25,000 = \$95,000 *Any amount over 98c disbursement will be paid from other State or Federal Grants Total Budget: \$95,000
