INDEPENDENT AUDITORS' REPORT

To the Board of Education
Fennville Public Schools

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Fennville Public Schools, as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Fennville Public Schools' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Fennville Public Schools as of June 30, 2010 and the respective changes in financial position, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 15, 2010, on our consideration of Fennville Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal controls over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages vi through xiv and page 30, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fennville Public Schools' basic financial statements. The additional information on pages 32 through 45 is presented for purposes of additional analysis and is not a required part of the basic financial statements. This additional information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Maney Costeiron PC

September 15, 2010

**FENNVILLE PUBLIC SCHOOLS
MANAGEMENT'S DISCUSSION & ANALYSIS
FISCAL YEAR ENDING JUNE 30, 2010**

Fennville Public Schools, a K-12 school district located in Allegan County, Michigan, is in its seventh year of implementation for the provisions of Governmental Accounting Standards Board Statement 34 (GASB 34) with the enclosed financial statements.

FINANCIAL HIGHLIGHTS

Below is a table showing the fund balances for the past eight years.

<u>DATE</u>	<u>GENERAL FUND FUND BALANCE</u>	<u>DIFFERENCE</u>
June 30, 2003	\$ 906,648	\$ 91,435
June 30, 2004	1,149,200	242,552
June 30, 2005	1,479,503	303,303
June 30, 2006	1,254,283	(225,220)
June 30, 2007	1,006,356	(247,927)
June 30, 2008	1,058,854	52,498
June 30, 2009	971,741	(87,113)
June 30, 2010	1,462,002	490,261

In 2009-10 the total general fund revenues exceeded \$12.70 million dollars with expenditures approximately \$12.07 million dollars. In 2008-09 the total general fund revenues exceeded \$12.54 million dollars with expenditures approximately \$12.59 million dollars. General fund revenues increased during the 2009-10 school year by \$161,121 due to property tax revenue increase and funding from intermediate school district. These two offset the decrease in federal sources. Total expenditures decreased by \$1,103,643 at the fund level. This was a result of prior year construction and installation of a new boiler system and related energy savings as well as tight budgetary controls.

The District continues to participate in short-term borrowing and borrowed \$3.0 million dollars during the year that was repaid in August 2010. The increased reliance on short-term borrowings to finance operations during the school year, especially until the first State aid payment in October, will require state aid borrowing in 2010/11, with \$2.2 million dollars being borrowed to meet cash flow needs.

On June 14, 2004, the voters approved a \$25,760,000 bond for building a new elementary building, major renovations to the middle school, site renovations to the high school and a new community athletic center. These projects were completed during 2009-10.

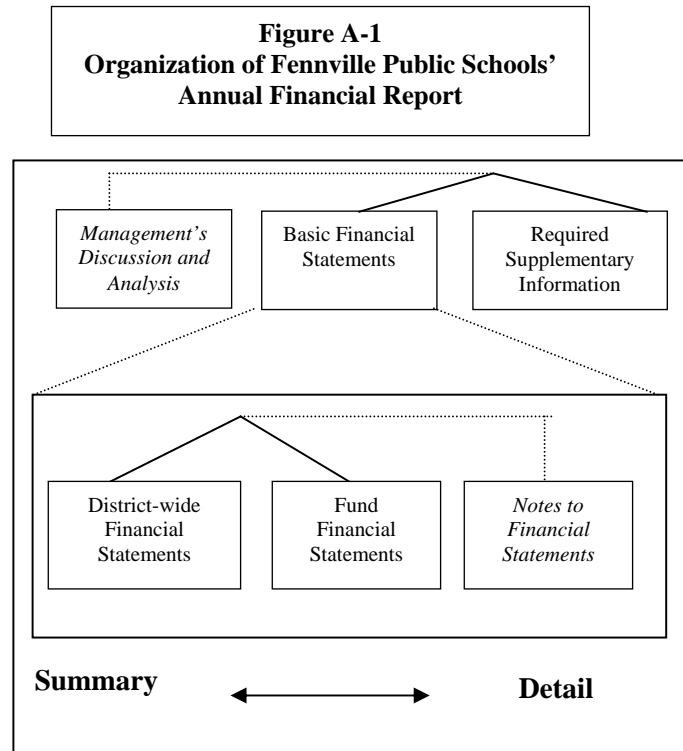

The food service department finished the fiscal year with a decrease of approximately \$60,000 largely due to purchases of equipment. Food service continues with an enviable fund balance in excess of \$230,000.

The athletic fund generated a surplus of \$900 as a result of increased admissions due to the successful seasons of several teams. The fund balance is approximately \$1,100.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management’s discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide financial statements* that provide both *short-term* and *long-term* information about the District’s *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District’s operations in *more detail* than the district-wide statements.
- The *governmental funds* statements tell how *basic* services like regular and special education were financed in the *short-term* as well as what remains for future spending.
- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District’s budget for the year. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

**Figure A-2
Major Features of District-Wide and Fund Financial Statements**

	District-wide Statements	Fund Financial Statements	
		Governmental Funds	Fiduciary Funds
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education and building maintenance.	Instances in which the district administers resources on behalf of someone else, such as scholarship programs and student activities monies
Required financial statements	* Statement of net assets * Statement of activities	* Balance sheet * Statement of revenues, expenditures and changes in fund balances	* Statement of fiduciary net assets * Statement of changes in fiduciary net assets
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both short-term and long-term, FPS's funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year, expenditures when goods or services have been received and the related liability is due and payable	All additions and deductions during the year, regardless of when cash is received or paid

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District’s activities they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis highlights the structure and contents of each of the statements.

DISTRICT WIDE FINANCIAL STATEMENTS:

All of the District’s assets and liabilities are reported in the district-wide financial statements and are on a full accrual basis that is similar to those used by private-sector companies. For example, capital assets and long-term obligations of the District are reported in the Statement of Net Assets of the district-wide financial statements. The difference between the District’s assets and liabilities (net assets) are one way to measure the District’s financial position. However, you need to consider other non-financial factors such as changes in the District’s property tax base and the condition and age of the school buildings and other facilities.

The current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid. Most of the District's basic services are included here, such as regular and special education, transportation and administration. These activities are financed through the state foundation grant, property taxes and various federal and state programs.

The District's combined net assets at the beginning of the fiscal year were \$3,797,433 and on June 30, 2010 they were \$4,273,078 which represents an increase of \$475,645 as recorded in the Statement of Activities.

FUND FINANCIAL STATEMENTS

The fund financial statements are reported on a modified accrual basis and consist of governmental funds and fiduciary funds. Governmental funds include most of the District's basic services which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending on future District programs.

Fiduciary funds are for assets that belong to others, such as the scholarship fund and the student activities fund where the District is the trustee or fiduciary. The District cannot use these assets to finance its operations but it is responsible to ensure that these funds are used for their intended purposes. Only measurable and currently available funds are reported. Liabilities are recognized to the extent that they are normally expected to be paid with current financial resources. Some of these funds are established by State law and by bond covenants while others can be established for the District to control and manage money for a particular purpose such as school lunch and athletics.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net assets – In 2009-10, the District's combined net assets as of June 30, 2010 totaled \$4,273,078 which was slightly more than as of June 30, 2009, \$3,797,433.

Table A-3		
Fennville Public Schools		
	2010	2009
Current assets	\$ 6,195,144	\$ 4,938,857
Capital assets and other	26,705,418	27,513,665

Interest on long-term debt	1,113,654	1,134,280
Total expenses	14,746,681	15,408,834
Change in net assets	\$ 475,645	\$ (355,280)

STATE OF MICHIGAN UNRESTRICTED AID (State Foundation Grant)

The State of Michigan aid, unrestricted, is determined with the following variables:

- a. The Michigan State Aid Act per student foundation allowance which was established under Proposal A has increased from \$4,754 per student in 1995 to \$7,162 per student in 2009-2010. The per student amount decreased by \$154 from the prior year or a 2% decrease.
- b. Student Enrollment - The blended count is 75 percent of current year's fall count and 25 percent of prior year's February count.
- c. The District's non-homestead levy for 2009-10 was 18.0000 mills which the voters approved in May 2010.

Student Enrollment

Student enrollment increased from 2008-09 to 2009-10 as a result of the closing of Discovery Elementary School. A decrease of pupils is expected in fall of 2010.

GOVERNMENTAL FUNDS

Results of Operations:

For the fiscal years ended June 30, 2010 and 2009, the district-wide results of operations were:

	2010	2009
REVENUES:		
Local sources:		
Property taxes	\$ 3,940,081	\$ 3,725,832
Investment earnings	13,928	53,032
Food sales, athletics and community service	206,587	233,035
Other	94,048	97,486
Total local sources	4,254,644	4,109,385
State sources	8,691,617	8,756,198
Federal sources	1,817,983	1,914,923
Intermediate sources	446,474	319,518
TOTAL REVENUES	\$ 15,210,718	\$ 15,100,024
EXPENDITURES:		
Current:		
Instruction	\$ 7,176,498	\$ 7,440,673
Supporting services	4,566,456	4,772,044
Food service activities	796,647	740,302
Athletic activities	221,589	199,256
Community service activities	65,349	54,953
Outgoing transfers and other	83,217	87,106
Debt service:		
Principal	699,543	743,781
Interest expense	1,105,347	1,134,984
Other	838	643
Capital outlay	12,147	657,532
TOTAL EXPENDITURES	\$ 14,727,631	\$ 15,831,274

The following summarizes the revenues and expenses by comparing fiscal year 2010 to 2009 as shown in the previous Results of Operations.

- Property taxes continue to increase due to increased taxable values and assessments.
- Interest earnings decreased with the reduction of interest rates the District was able to obtain on their own investment opportunities due to the state of our economy.
- State sources slightly decreased due to the State budget cuts.
- Federal sources showed a decrease due to decreases in Title I allocation.

- Intermediate sources increased over the previous year as the result of Act 18 funding.
- The Community Athletic Center (CAC) continues to be a huge success, with over 1,200 community members becoming members. There will always be costs associated with utility, cleaning and personnel costs to operate the center. Membership fees were increased to offset existing costs this year.
- The continued success of the food service department is a two edged sword. Too much fund equity can jeopardize federal funding, yet the desire to offer more food options to students requires greater start up costs. The District charges an indirect cost to recover some of the cleaning and utility costs paid by the general fund.
- Salaries and benefits increased due to annual steps in salary as well as insurance rate increases.

The Fennville Public School District voters approved the 18 mill renewal in May 2010. The State of Michigan allows each school district to levy 18 mills on Non-PRE property, formally known as non-homestead property, and the foundation grant is calculated after the 18 mills. The approval of this renewal resulted in nearly two million in revenue for the District in fiscal year 2009-10.

Following is a table showing the past eight years of property taxes collected on Non-PRE property, formally known non-homestead property.

Fiscal year	Non-Homestead	
	Levy	Mills
2009 - 2010	\$ 2,255,711	18.0000
2008 - 2009	2,096,333	18.0000
2007 - 2008	1,999,760	18.0000
2006 - 2007	1,891,005	18.0000
2005 - 2006	1,739,017	18.0000
2004 - 2005	1,564,900	17.5338
2003 - 2004	1,516,817	18.0000
2002 - 2003	1,407,377	18.0000
2001 - 2002	1,175,266	18.0000

GENERAL FUND AND BUDGET HIGHLIGHTS

Original vs. Final Budget:

The Uniform Budget Act of the State of MI requires that the local BOE approve the original budget for the upcoming fiscal year prior to July 1, the start of the fiscal year. The 2010-11 budget was approved on June 21, 2010.

The 2009-10 budget was revised two times throughout the fiscal year, with the final revision approved on June 21, 2010, representing changes that were estimated during the month of January 2010. The final budget revision anticipated higher revenues and lower expenses than was expected in June 2009. The increased revenues was a result of the closing of the Discovery Charter School which closed June 2009; 70 students transferred to Fennville Public Schools in the fall of 2009. The decrease in expenses was the result of reduced operating expenses due to the first full year of the energy savings program and lower fuel costs for the transportation of students.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

By the end of 2010, the District had invested \$35.2 million in a broad range of capital assets.

	2010			2009
	Cost	Accumulated depreciation	Net book value	Net book value
Land	\$ 337,337	\$ -	\$ 337,337	\$ 337,337
Construction in process	-	-	-	614,739
Buildings and additions	29,427,934	5,650,765	23,777,169	23,762,002
Land improvements	1,735,401	314,963	1,420,438	1,507,083
Computer and office	1,893,308	1,385,830	507,478	708,422
Outdoor equipment	524,958	376,053	148,905	68,435
Transportation equipment	1,287,927	944,055	343,872	338,313
Total	<u>\$ 35,206,865</u>	<u>\$ 8,671,666</u>	<u>\$ 26,535,199</u>	<u>\$ 27,336,331</u>

LONG-TERM DEBT

The 2004 construction and remodeling bond was approved by the voters on June 14, 2004 in the amount of \$25,760,000. The District issues general obligation bonds to provide funds for the acquisition, construction and improvement of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. See Note 7 for more information.

	2010	2009
General obligation bonds - net	\$ 23,386,987	\$ 23,862,288
Limited obligation bonds	55,614	72,494
Compensated absences	42,125	41,643
Bus loans	54,281	106,430
Voluntary severance plan	-	110,000
Other loans	1,215,553	1,346,057
	<u>\$ 24,754,560</u>	<u>\$ 25,538,912</u>

FACTORS BEARING ON THE DISTRICT'S FUTURE

There are several factors that could significantly affect the financial health of the District in the future.

- The funding received from the State of Michigan continues to be of concern. While the State's 2010-11 School Aid Budget is projecting a \$154 reduction in foundation allowance it is anticipated that the State's revenues projections will be lower at the January 2011 Revenue Consensus Conference and the current surplus in the School Aid Budget will be used to fill in the shortfalls in the General Fund budget. This would result in an additional reduction in funding. Also, a new Governor and many new State legislatures will be sworn into office in January 2011 so changes in the State's budgeting process and tax changes may affect school funding. During the 2010-11 school year the federal Stimulus funds will run out creating a further reduction in revenues if the State doesn't develop the revenues to offset the funds.
- The teacher's contract has been settled for the 2010-11 and 2011-12 school years. While the contract provides for step increases for both years and a 1% base increase for the 2010-11 school year, the teacher insurance benefits were changed which will lower the total cost of teacher's benefits. Non-union employee health insurance rates for 2010-11 decreased by .04%. Retirement contribution rates are increasing by 2.41% for the 2010-11 school year and are anticipating an increase of 1.5% for 2011-12.
- Eight teachers took the State's retirement incentive and retired effective June 30, 2010. All eight positions will be replaced; it is anticipated that the new teachers will start at a pay rate lower than what the retiring teachers were paid.
- A student enrollment decrease is anticipated for the upcoming school year, which will play a role in the District's balancing of their budget.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the revenues it receives. If you have any questions about this report or need any additional information, please contact Business Services Office, Fennville Public Schools, Fennville, Michigan 49408, phone 269-561-7331.

**FENNVILLE PUBLIC SCHOOLS
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BLANACES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2010**

Net change in fund balances total governmental funds \$ 498,399

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. In the statement of activities these costs are allocated over their estimated useful lives as depreciation.

Depreciation expense	(1,119,530)
Capital outlay	318,398

Accrued interest on bonds is recorded in the statement of activities when incurred; it is not recorded in governmental funds until it is paid:

Accrued interest payable, beginning of the year	190,954
Accrued interest payable, end of the year	(186,109)

The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The effect of these differences is the treatment of long-term debt and related items and are as follows:

Payments on bonded debt	505,000
Payments on other long-term debt	199,533
Amortization of bond issuance costs	(7,115)
Amortization of deferred loss on refunding	(17,385)
Amortization of bond discounts	(12,314)

Revenue is recorded on the accrual method in the statement of activities; in the governmental funds it is recorded on the modified accrual method and not considered available:

Deferred revenue, beginning of the year	(4,110)
Deferred revenue, end of the year	406

Compensated absences are reported on the accrual method in the statement of activities, and recorded as an expenditure when financial resources are used in the governmental funds:

Accrued compensated absences, beginning of the year	41,643
Accrued compensated absences and termination benefits, end of the year	(42,125)
Accrued voluntary severance plan, beginning of the year	110,000

Change in net assets of governmental activities	\$ 475,645

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the Fennville Public Schools have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The Fennville Public Schools (the "District") is governed by the Fennville Public School's Board of Education (the "Board"), which has responsibility and control over all activities related to public school education within the District. The District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. However, the District is not included in any other governmental reporting entity as defined by the accounting principles generally accepted in the United States of America. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters. In addition, the District's reporting entity does not contain any component units as defined in Governmental Accounting Standards Board Statements No. 14 and 39.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. The government-wide financial statements categorize primary activities as either governmental or business type. All of the District's activities are classified as governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges paid by recipients who purchase, use or directly benefit from goods or services by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. State Foundation Aid, certain revenue from the intermediate school district and other unrestricted items are not included as program revenues but instead as *general revenues*.

In the government-wide statement of net assets, the governmental activities column (a) is presented on a consolidated basis, (b) and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements (Continued)

The District first utilizes restricted resources to finance qualifying activities.

The government-wide statement of activities reports both the gross and net cost of each of the District's functions. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues and other revenue.) The statement of activities reduces gross expenses by related program revenues and operating grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The net costs (by function) are normally covered by general revenue (property taxes, state sources, intermediate district sources, interest income and other revenues.)

The District does not allocate indirect costs.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net assets resulting from the current year's activities.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental funds - Governmental funds are those funds through which most school district functions typically are financed. The acquisition, use and balances of the school district's expendable financial resources and the related current liabilities are accounted for through governmental funds.

The District reports the following major governmental funds:

The *general fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The *2005 debt service fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *capital projects* fund accounts for the receipt of debt proceeds and the acquisition of fixed assets or construction of major capital projects.

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and fund financial statements (Concluded)

The capital projects fund include capital project activities funded with bonds issued after May 1, 1994. For these capital projects, the school district has complied with the applicable provisions of §1351a of the Revised School Code.

Beginning with the year of bond issuance, the District has reported the annual construction activity in the capital projects fund. The project for which the 2004 Serial Bonds were issued was considered complete on November 7, 2007 and the cumulative expenditures recognized for the construction period were as follows.

The following is a summary of the revenue and expenditures for the capital projects bond activity since inception:

	<u>Capital projects</u>
Revenue and other financing sources	\$ 26,596,123
Expenditures	\$ 26,596,123

Other Non-major Funds

The *special revenue funds* account for revenue sources that are legally restricted to expenditures for specific purposes (not including expendable trusts or major capital projects). The District accounts for its food service and athletic activities in the special revenue funds.

The *debt service fund* - Durant accounts for the resources accumulated and payments made for principal and interest on long-term limited obligation debt as a result of the Durant settlement.

Fiduciary funds account for assets held by the District in a trustee capacity or as an agent on behalf of others. Trust funds account for assets held by the District under the terms of a formal trust agreement. Fiduciary funds are not included in the government-wide statements.

The *agency fund* is custodial in nature and does not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. This fund is used to account for assets that the District holds for others in an agency capacity (primarily student activities).

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Basis of Presentation

Accrual Method

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Government Accounting Standards Board.

Modified Accrual Method

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, state and federal aid and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

State Revenue

The State of Michigan utilizes a foundation grant approach which provides for a specific annual amount of revenue per pupil based on a statewide formula. The Foundation is funded from state and local sources. Revenues from state sources are primarily governed by the School Aid Act and the School Code of Michigan. The Michigan Department of Education administers the allocation of state funds to school districts based on information supplied by the districts. For the year ended June 30, 2010, the foundation allowance was based on pupil membership counts taken in February and September of 2009.

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Basis of Presentation (Concluded)

The state portion of the foundation is provided primarily by a state education property tax millage of 6 mills on Principal Residence Exemption (PRE) property and an allocated portion of state sales and other taxes. The local portion of the foundation is funded primarily by Non-PRE property taxes (formerly known as Non-Homestead) which may be levied at a rate of up to 18 mills as well as 6 mills for Commercial Personal Property Tax. The State revenue is recognized during the foundation period and is funded through payments from October 2009 to August 2010. Thus, the unpaid portion at June 30th is reported as due from other governmental units.

The District also receives revenue from the state to administer certain categorical education programs. State rules require that revenue earmarked for these programs be used for its specific purpose. Categorical funds which are not expended by the close of the fiscal year are recorded as deferred revenue.

D. Other Accounting Policies

1. Cash and equivalents include amounts in demand deposits and certificates of deposit.

The District reports its investments in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* and No. 40, *Deposits and Investment Risk Disclosures*. Under these standards, certain investments are valued at fair value as determined by quoted market prices, or by estimated fair values when quoted market prices are not available. The standards also provide that certain investments are valued at cost (or amortized cost) when they are of a short-term duration, the rate of return is fixed, and the district intends to hold the investment until maturity. Accordingly, investments in banker acceptances and commercial paper are recorded at amortized cost.

State statutes authorize the District to invest in bonds and other direct and certain indirect obligations of the U.S. Treasury; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which matures not more than 270 days after the date of purchase. The District is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Other Accounting Policies (Continued)

2. Property taxes

Property taxes levied by the District are collected by various municipalities and periodically remitted to the District. The taxes are levied and become a lien as of July 1 and December 1 and are due upon receipt of the billing by the taxpayer and become a lien on the first day of the levy year. The actual due dates are September 14 and February 14, after which time the bills become delinquent and penalties and interest may be assessed by the collecting entity.

For the year ended June 30, 2010, the District levied the following amounts per \$1,000 of assessed valuation:

Fund	Mills
General fund:	
Non-Principal Residence Exemption (PRE)	18.00
Commercial Personal Property	6.00
Debt service fund:	
PRE, Non-PRE, Commercial Personal Property	4.90

3. Inventories and prepaid expenditures

Inventories are valued at the lower of cost (first-in, first-out) or market. Inventories consisting of expendable supplies held for consumption, are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenditures.

4. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Other Accounting Policies (Continued)

5. Capital assets

Capital assets purchased or acquired are capitalized at historical cost or estimated historical cost. Donated fixed assets are valued at their estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets.

Depreciation on all assets is provided on the straight-line basis over the estimated useful lives as follows:

Buildings and additions	50 years
Furniture and other equipment	5 - 20 years

The District's capitalization policy is to capitalize individual amounts exceeding \$5,000.

6. Compensated absences

The District's contracts generally provide for granting vacation and sick leave with pay. The current and long-term liability for compensated absences is reported on the government-wide financial statements. A liability for these amounts, including related benefits, is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations or retirements.

7. Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net assets. Bond premiums and discounts, as well as issuance costs and the difference between the reacquisition price and the net carrying amount of the old debt, are deferred and amortized over the life of the bonds using the straight line method, which approximates the effective interest method, over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concluded)

D. Other Accounting Policies (Concluded)

8. Use of estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenditures. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general and special revenue funds. Encumbrance accounting is employed in governmental funds. Significant encumbrances outstanding at year end, if any, are reported as reservations of fund balance because they will be re-appropriated in the subsequent fiscal year.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Superintendent submits to the School Board a proposed operating budget for the fiscal year commencing on July 1. The operating budget includes proposed expenditures and the means of financing them. The level of control for the budgets is at the functional level as set forth and presented as required supplementary information.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to July 1, the budget is legally adopted by School Board resolution pursuant to the Uniform Budgeting and Accounting Act (1968 PA 2). The Act requires that the budget be amended prior to the end of the fiscal year when necessary to adjust appropriations if it appears that revenues and other financing sources will be less than anticipated or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, in excess of the amount appropriated. Violations, if any, for the general fund are noted in the required supplementary information section.
4. The Superintendent is authorized to transfer budgeted amounts between major expenditure functions within any fund; however, these transfers and any revisions that alter the total expenditures of any fund must be approved by the School Board.

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Concluded)

5. Formal budgetary integration is employed as a management control device during the year for the general and special revenue funds.
6. The budget was amended during the year with supplemental appropriations, the last one approved prior to June 30, 2010. The District does not consider these amendments to be significant.

NOTE 3 - DEPOSITS AND INVESTMENTS

As of June 30, 2010, the District had the following investments

Investment Type	Fair value	Weighted average maturity (years)	Standard & Poor's Rating	%
MILAF External Investment pool - CMF	\$ 2,550	0.0027	AAAm	0.2%
MILAF External Investment pool - MAX	19,826	0.0027	AAAm	1.8%
Dreyfus Treasury Cash Management	99,017	0.0027	AAAm	8.7%
State and Local Government Series	<u>1,014,000</u>	0.0027	AAAm	<u>89.3%</u>
Total fair value	<u><u>\$1,135,393</u></u>			<u><u>100.0%</u></u>
Portfolio weighted average maturity		<u><u>0.0027</u></u>		

1 day maturity equals approximately .0027 years.

The District voluntarily invests certain excess funds in external pooled investment funds which included money market funds. One of the pooled investment funds utilized by the District is the Michigan Investment Liquid Asset Fund (MILAF). MILAF is an external pooled investment fund of "qualified" investments for Michigan school districts. MILAF is not regulated nor is it registered with the SEC. MILAF reports as of June 30, 2010, the fair value of the District's investments is the same as the value of the pool shares.

Interest rate risk. In accordance with its investment policy, the District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and, investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the District's cash requirements.

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 3 - DEPOSITS AND INVESTMENTS (Continued)

Credit risk. State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSROs).

Concentration of credit risk. The District will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the District's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

Custodial credit risk - deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2010, \$2,901,562 of the District's bank balance of \$3,651,562 was exposed to custodial credit risk because it was uninsured and uncollateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name. The carrying value on the books for deposits at the end of the year was \$3,341,932.

Custodial credit risk - investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The District will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities allowed by law; and pre-qualifying the financial institutions, broker/dealers, intermediaries and advisors with which the District will do business.

Foreign currency risk. The District is not authorized to invest in investments which have this type of risk.

The above amounts as previously reported in Note 3:

Deposits - including fiduciary funds of \$114,380	\$ 3,341,932
Investments	1,135,393
	4,477,325
	\$ 4,477,325

NOTES TO FINANCIAL STATEMENTS**

NOTE 7 - LONG-TERM DEBT (Continued)

Bonds payable at June 30, 2010 is comprised of the following issues:

1998 limited obligation bonds (Durant bonds) due in annual installments of \$17,684 to \$19,405 through May 15, 2013, with interest at 4.76%. Certain state aid payments have been pledged as security.	\$ 55,614
2004 serial bonds due in annual installments of \$530,000 to \$1,295,000 through May 1, 2029 with interest from 3.00% to 5.00%.	16,350,000
2007 serial bonds due in annual installments of \$35,000 to \$1,640,000 through May 1, 2034 with interest from 4.00% to 4.20%.	7,745,000
Less: deferred amount on bond refunding	(412,905)
Less: issuance discounts	(295,108)
Land purchase - January 2007 purchase of land. Loan due in monthly installments of \$2,975 through December 14, 2017 with an interest rate of 6.00%.	191,781
Roof replacement - March 2007 replacement of the high school roof. Loan due in monthly installments of \$6,907 through May 10, 2017 with an interest rate of 5.04%.	477,502
Bus loan - October 13, 2005, 5 new buses. Loan due in annual installments of \$54,281 through October 13, 2011 with interest at 4.10%.	54,281
AAESA Data storage purchase - April 2007 purchase of data warehouse storage. Loan due in annual installments of \$4,989 through April 2011.	4,989
Energy notes - September 2008 purchase of energy conservation materials and equipment. Loan due in monthly installments of \$5,725 through May 1, 2020 with an interest rate of 4.49%.	541,281
Total bonded debt and other long-term obligations	24,712,435
Compensated absences	42,125
Total general long-term debt	<u><u>\$ 24,754,560</u></u>

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 7 - LONG-TERM DEBT (Concluded)

The District has defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2010, \$7,345,000 of bonds outstanding are considered defeased.

The annual requirements to amortize long-term obligations outstanding exclusive of compensated absences payments as of June 30, 2010, including interest of \$16,479,415 are as follows:

Year ending June 30,	Principal	Interest	Total
2011	\$ 738,624	\$ 1,143,847	\$ 1,882,471
2012	711,655	1,114,719	1,826,374
2013	749,321	1,086,241	1,835,562
2014	767,036	1,054,795	1,821,831
2015	804,514	1,022,717	1,827,231
2016 - 2020	4,249,298	4,590,932	8,840,230
2021 - 2025	4,830,000	3,574,225	8,404,225
2026 - 2030	6,350,000	2,227,181	8,577,181
2031 - 2034	6,220,000	664,758	6,884,758
	25,420,448	16,479,415	41,899,863
Deferred amount on bond refinancing	(412,905)	-	(412,905)
Issuance discounts	(295,108)	-	(295,108)
Compensated absences	42,125	-	42,125
	<u>\$ 24,754,560</u>	<u>\$ 16,479,415</u>	<u>\$ 41,233,975</u>

The Durant bonds, including interest, was issued in anticipation of payment to the District as appropriated and to be appropriated by the State of Michigan under Section 11g(3) of Act 94 (State Aid payments). The District has pledged and assigned to the bondholder all rights to these State Aid payments as security for the Bond.

Interest expense (all funds) for the year ended June 30, 2010 was approximately \$1,268,000.

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 8 - INTERFUND RECEIVABLES AND PAYABLES

Interfund payable and receivable balances at June 30, 2010 are as follows:

Receivable fund		Payable fund	
General fund	\$ 19,147	Food service	\$ 19,147

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

NOTE 9 - EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PLAN

Plan Description - The District contributes to the statewide Michigan Public School Employees' Retirement System (MPERS), a cost sharing multiple-employer state-wide defined benefit public employee retirement plan governed by the State of Michigan. The MPERS provides retirement survivor and disability benefits and postretirement benefits for health, dental and vision for substantially all employees of the District. The MPERS was established by Public Act 136 of 1945 and operated under the provisions of Public Act 300 of 1980, as amended. The MPERS issues a publicly available financial report that includes financial statements and required supplementary information for MPERS. That report may be obtained by writing to Michigan Public School Employees Retirement System, P.O. Box 30171, Lansing, Michigan 48909-7671 or by calling (800) 381-5111.

Funding Policy - Member Investment Plan (MIP) members enrolled in MIP prior to January 1, 1990 contribute a permanently fixed rate of 3.9% of gross wages. The MIP contribution rate was 4.0% from January 1, 1987, the effective date of the MIP, until January 1, 1990 when it was reduced to 3.9%. Members first hired January 1, 1990 or later and returning members who did not work between January 1, 1987 through December 31, 1989 contribute at the following graduated permanently fixed contribution rate: 3% of the first \$5,000; 3.6% of \$5,001 through \$15,000; 4.3% of all wages over \$15,000. Members joining the system on or after July 1, 2008 contribute at the following graduated rate: 3% of the first \$5,000, 3.6% of \$5,001 through \$15,000, and 6.4% of all wages over \$15,000.

Basic Plan members make no contributions. For a limited period ending December 31, 1992, an active Basic Plan member could enroll in the MIP by paying the contributions that would have been made had enrollment occurred initially on January 1, 1987 or on the date of hire, plus interest. MIP contributions at the rate of 3.9% of gross wages begin at enrollment. Actuarial rate interest is posted to member accounts on July 1st on all MIP monies on deposit for 12 months. If a member leaves MPERS service and no pension is payable, the member's accumulated contribution plus interest, if any, are refundable.

**FENNVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 9 - EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PLAN (Concluded):

The District is required to contribute the full actuarial funding contribution amount to fund pension benefits, plus an additional amount to fund retiree health care benefit amounts on a cash disbursement basis. The rates for the year ended June 30, 2010 were 16.54% of payroll through September 30, 2009 and 16.94% effective October 1, 2009 through June 30, 2010. The contribution requirements of plan members and the District are established and may be amended by the MPSERS Board of Trustees. The District contributions to MPSERS for the year ended June 30, 2010, 2009 and 2008 were \$1,029,600, \$1,085,496 and \$1,050,590, respectively, and were equal to the required contribution for those years.

Other Post-employment Benefits - Also within the MPSERS system, retirees have the option of health coverage, which is funded on a cash disbursement basis by the employers. The MPSERS has contracted to provide the comprehensive group medical, hearing, dental and vision coverage for retirees and beneficiaries. A significant portion of the premium is paid by the MPSERS with the balance deducted from the monthly pension.

The District is not responsible for the payment of retirement benefits and post-employment benefits which is the responsibility of the State of Michigan.

NOTE 10 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees' and natural disasters. The District participates in two distinct pools of educational institutions within the State of Michigan for self-insuring property and casualty and workers' disability compensation. The pools are considered public entity risk pools. The District pays annual premiums under a retrospectively rated policy to the pools for the respective insurance coverage. In the event a pool's total claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool's policy year may be subject to special assessment to make up the deficiency. The workers' compensation pool and the property casualty pool maintain reinsurance for claims generally in excess of \$500,000 for each occurrence with the overall maximum coverage varying depending on the specific type coverage of reinsurance.

The District continues to carry commercial insurance for other risks of loss, including employee health and accident insurance. No settlements have occurred in excess of coverage for June 30, 2010 or any of the prior three years.

**FENVILLE PUBLIC SCHOOLS
NOTES TO FINANCIAL STATEMENTS**

NOTE 11 - TRANSFERS

The general fund transferred \$179,402 to the athletic fund during the current fiscal year. The transfer to the athletic fund was to subsidize operations. The food service fund transferred \$35,722 to the general fund for indirect cost reimbursement.

NOTE 12 - SUBSEQUENT EVENTS

The District has approved borrowing \$2,200,000 for fiscal year 2011 to replace the note payable as described in Note 6.

NOTE 13 - THE AMERICAN RECOVERY AND REINVESTMENT ACT (ARRA)

During the year ended June 30, 2010 the District reported revenue of \$409,059 of unrestricted ARRA stabilization funds to off-set a shortage in the State of Michigan foundation funding. It is uncertain if the District will receive unrestricted ARRA stabilization funds in the future.

NOTE 14 - FUTURE ACCOUNTING STANDARDS

Effective for the year ending June 30, 2011, the District will be required to implement new accounting standards that revise the classification of fund balance and the definition of special revenue funds. As a result, athletic activities will be included in the general fund rather than a separate fund.

		<u>\$ 55,614</u>	<u>\$ 5,378</u>	<u>\$ 60,992</u>

This bond, including the interest hereon, is issued in anticipation of payments appropriated and to be appropriated by the State under section 11g(3) of Act 94 to the School District (the "State Aid Payments"). The School District hereby pledges and assigns to the Authority all of its rights to and in such State Aid Payments as security for this bond and the State Aid Payments which are hereby pledged shall be subject to a statutory lien in favor of the Authority as authorized by Act 94. This bond is self-liquidating bond and is not a general obligation of the School District and does not constitute an indebtedness of the School District within any constitutional or statutory limitation, and is payable both as to principal and interest, solely from such State Aid Payments. The School District, as requested by the Authority, hereby irrevocably authorized the payment of the State Aid Payments directly to the Authority's Depository.
